

> TRU-SEAL™ PMV2C VALVE TALL

Precision dispensing for chemicals, post-mix beverages, and a wide range of liquid applications.

Leading the pack in dispensing solutions worldwide.

TW Fastex™

Why Choose Flexible Packaging?

Ensuring product integrity, system efficiency and environmental responsibility are essential in packaging, storing and shipping food and beverage products around the world.

> With **versatility, durability and efficiency** in conserving resources, flexible packaging provides benefits to both manufacturers and end-users alike.

Less raw material and natural resources used during production.

Less packaging waste with optimized product-to-pack ratio.

Maximized performance due to unrivaled quality design and engineering.

Less energy required during production and transportation.

Less transportation required with more efficient logistics.

Product and company branding opportunities.

Less product waste with excellent shelf-life capabilities.

Efficient Dispensing for Demanding Environments

The TRU-SEAL™ PMV2C Valve Tall is designed for safe, hygienic, and efficient dispensing in demanding applications, helping to reduce waste, improve operational efficiency, and maintain product integrity.

Its closed-loop pump-out design minimizes operator contact while delivering consistent, reliable performance across a range of food-service and institutional settings.

Ideal for soft drink and cleaning chemical applications, the TRU-SEAL™ PMV2C Valve Tall also offers flexible system integration through optional compatible connectors.

Smart Dispensing for Pump-Out Systems

A dependable solution for operations that demand precision, hygiene, and efficiency in every dispense.

Flow rate (seconds per litre):

33.0 (open container) - Refer to PMV2C Connector

37.0 (2 L bag in box) - Refer to PMV2C Connector

Valve Dimensions (in full cap position):

Height **37.2mm** x Width **43mm** x Depth **62.5 mm**

Control & Precision

Engineered to deliver accurate, consistent, and controlled dispensing, helping ensure product integrity while minimizing waste throughout the filling and dispensing process.

Suitable for Hot-Fill Applications

A dedicated hot-fill version is available for applications requiring elevated filling temperatures. Designed to maintain reliable performance and secure sealing under hot-fill conditions.

Reduced Operator Exposure

The closed-loop system minimizes contact with product contents, helping create a safer work environment while supporting efficient day-to-day operations.

Enhanced Freshness and Quality

Engineered to deliver accurate consistent and controlled dispensing ensuring product integrity while minimizing waste throughout the filling and dispensing process.

Component Materials

Manufactured from high-density polyethylene (HDPE) and linear low-density polyethylene (LDPE). All component materials comply with US FDA and EU food contact regulation ensuring suitability for food and beverage applications.

Flexible Configurations

Compatible connectors available for flexible system integration.

*Technical data sheet available on request. It is the customer's responsibility to determine the suitability of this product for their specific application.

Retail and Industrial Solutions

Designed for precision and simplicity, the **TRU-SEAL™ PMV2C Valve Tall** enables safe, accurate, and controlled dispensing of liquid products across a wide range of applications.

It's reliable performance helps improve operational efficiency, reduce product waste, and deliver a seamless experience for both businesses and end users.

Chemicals

Cleaning chemicals
Detergents
Industrial fluid dispensing

Food & Beverage

Post-mix syrup systems
Beverage vending machines
Liquid food concentrates

Ideal for post-mix vending systems as well as chemical and food-based applications, it provides dependable performance wherever controlled liquid dispensing is required.

ITW Fastex is a market leader in the manufacture and supply of a broad range of quality fitments for dispensing solutions worldwide.

ITW Fastex taps, fitments and connectors are world renowned for quality and reliability and with over 30 years' experience, a strong emphasis on quality and a dedicated research and development team, ITW Fastex brings exceptional value to its global customers.

Whatever your dispensing requirements, the ITW Fastex team will work with you to establish a leading-edge solution.
